

Residential Trip to Winmarleigh

At Winmarleigh both staff and students took part in various fun activities. The activities that were planned for us were raft building, giant zip line, Jacob's ladder, archery and lots more. A lot of these activities allowed students to build new relationships with other students they maybe wouldn't have spoken to in school. The five days that were spent there were jam packed with activities. The students enjoyed the free time at night to chill and go to the tuck shop or vending machines. The students really enjoyed every aspect of the trip and the free time in between activities where they could use the games room, explore the grounds or play football on the yard. All students loved the food and especially the desserts. The staff at Winmarleigh were very helpful and entertaining.
